

Reverend Father Maria Joquin Alonso, C.M.F.,

My most dear and reverend Father, here I am, I, Fr. Aloysius, with the board of directors of the MAP. We are discussing <sup>about</sup> our future vocations. We found here in America a seminary called Holy Trinity Seminary, in Irving, Texas. This seminary is considered by Archbishop Sheen, the Famous Archbishop Sheen, as the best seminary in the whole nation of the United States. Archbishop Sheen has been giving retreats in this seminary. <sup>And</sup> He is always so pleased there, with the education that the seminarians are getting, under Cistercian Fathers.

We have there at present Russell Gilbert, who is there very happy, and to certify this, I enclose herein in this letter, the last letter he wrote to me. I found for him a sponsor, a lady whom I know for 13 years, who is going to pay his whole tuition. And that has tied Russell Gilbert to us entirely. And he is committed to the MAP.

Now, this coming September, Gene Koeune wants to go to that seminary, and he has been in communication with the pastor of St. Finbars in Burbank. He has frequented that church in the morning, and Monsignor has been always so impressed with him. And several times Monsignor has asked him whether he, at the beginning was a seminarian, and then whether he would like to be a seminarian. And recently Gene has asked him for a letter of recommendation for entering the Seminary in Irving, Dallas. And Monsignor was so pleased to give him the best letter recommending him most highly to the rector of the seminary ~~of~~ in Irving, Dallas. He has advanced very much in his studies at the same time in his spirituality. <sup>And</sup> Our Lord has blessed him very much. And his own pastor <sup>in the letter</sup> wrote to me that he would like him to become eventually a priest. But now he has really advanced ~~in~~ so ~~much~~ in his studies. We are going to give him <sup>also</sup> a tutor, before entering the seminary in September, so that he be up to par in his studies. In case he will not succeed <sup>with</sup> in his studies he will be an ideal brother. He is so committed to the MAP. So attached to Charles Carpenter, And so good, so spiritual. He is the admiration of all in the restaurant where he works. He is considered as the best waiter and as the best helper in the restaurant. His brother Stevie follows him in the cleanliness of life and spirituality, piety and high ideals in life. But his brother is only 21, and has a terrific personality, and ~~he~~ is an angel, <sup>really an angel</sup> and nothing worldly in him or in his brother Gene.

We have another one to enter in the Seminary in Dallas this year. He is finishing his college. That means that he has now all the credits and good ones at that. He is a daily communicant for years. and deeply spiritual. This Tohommy Anderson, whom I know since he was a small child. He is under my spiritual direction. He is going to join Gilbert and Gene in Dallas.

There is another one whom I know well from San Diego. His name is Patrick Siefner. He is an artist, he knows how to paint on oil, he's improving fast, <sup>in this</sup> but above all he is deeply spiritual, he loves God very much. He is not too bright, but he also willing to become a brother <sup>in case</sup> ~~if~~ <sup>can</sup> he ~~does~~ not succeed with his studies as a priest.

Now, dear Fr. Alonso, <sup>to</sup> in order not to overburden you, let these students prove themselves worthy <sup>of entering</sup> of joining the MAP. And while we tell them they are candidates for the MAP if they prove to be worthy, you must not consider them as part of the MAP as yet. but once the rector of the seminary where they will be studying, be completely satisfied ~~in~~ with them, then they can <sup>act</sup> naturally join the MAP. So we are working with them, we might say, as kind of postulants, for the MAP. We'll be studying them carefully together with the rector and their professors, and then we present to you their grades. and, as we say in Spanish, "sus notas" and then it will be up to you to admit them to the MAP, or reject them.

I feel, dear Father, more and more positive about the MAP. And you can see that Divine Grace is moving these boys to be ~~Some~~ day Missionaries of Perpetual Adoration for the Most Blessed Sacrament and Perpetual Veneration for the Immaculate of Mary.

Reverend Father Maria Joquin Alonso, C.M.F.,

My most dear and reverend Father, here I am, I, Fr. Aloysius, with the board of directors of the MAP. We are discussing <sup>about</sup> our future vocations.
